

RAINBOW HOUSING ASSISTANCE CORPORATION

Rainbow Housing Assistance Corporation provides service-enriched housing programs for residents of senior living communities throughout the country. Partnering with Rainbow to design and implement a variety of unique programs and services tailored to the community and resident population enhances and engages residents in the value of their community. Building this sense of community directly supports resident retention efforts thus improving the asset's bottom line financial performance.

Rainbow delivers results.

Rainbow's programs actively create community stability through resident engagement. The Resident Service Coordinator is a dedicated resource that is focused on cultivating an inviting, participatory environment for residents. Establishing this sense of community delivers the lifestyle needs seniors are looking for and provides the following benefits:

- Increased resident activeness
- Make independent living possible
- Strong sense of community
- Ensure federal and state regulation compliance

Community building efforts. Engaging Rainbow's service enriched housing programs builds communities with senior living assets. Rainbow will design a program that is custom-made to your resident's needs and place a dedicated resource within the community to implement this program. Programs can include:

- Social event planning
- Basic computer training
- Exercise programs
- Booking entertainment
- Accessibility review and improvements
- Third party service partnerships
- Food programs
- Hobby classes and activities
- Medical support
- Field trips

Together we build vibrant, stable communities

Testimonial:

"Since Rainbow Housing joined the Copeland Creek community, we have seen residents become more active, social and interested. They [Rainbow] have been instrumental in creating a sense of community and providing a better quality of life for our residents."

- Dan Lisenby, Regional Manager, Pacific West Management
